Certification of CPNI Filing February 6, 2006  
EB Docket No. 06-36  
File No. EB-06-TC-060

SECTION 64.2009 CPNI CERTIFICATE OF COMPLIANCE

I, Stephan J. Suker, Vice President of Central Vermont Communications, Inc. (the "Company"), a Commercial Mobile Radio Service (CMRS) provider of paging service, hereby certify that I have personal knowledge of the Company's operating procedures with respect to Customer Proprietary Network Information (CPNI), and that, to the best of my knowledge, information and belief, those operating procedures are sufficient to ensure compliance with Part 64 of FCC rules relating to the Company's use and safeguarding of CPNI as I understand them. The basis for my certification is summarized below:

The paging service provided by the Company is billed to the customer monthly on a flat-rate basis. As a result, the Company collects at most only minimal information that could be considered CPNI under the FCC's rules. Any use or disclosure of or provision of access to customer-specific information by the Company, whether CPNI or not, requires my approval.

The Company uses, discloses or provides access to CPNI only for the purpose of initiating, rendering, billing or collecting for the paging service provided by the Company. There are two circumstances under which the Company discloses CPNI to third party vendors as an incident of providing its paging service: (1) to the company that provides the customer billing software and system, and (2) to point-of-sale agents that initially sign customers up for the Company's service. In all cases the Company requires these third party vendors to observe the Company's CPNI obligations and to limit their use of CPNI solely to the purpose for which they are permitted access. The Company also discloses CPNI to law enforcement personnel in compliance with subpoenas.

Except as described in the preceding paragraph, the Company does not disclose or provide access to CPNI to any third parties for any purpose.

The Company does not employ any third parties to market paging service on its behalf. To the extent any marketing of the Company's paging service is done, it is done through direct sales by one or more employees of the Company. Such employees may maintain customer account information for customer service purposes and for the purpose of selling additions to services already subscribed to by customers, or adjuncts to basic services already subscribed to by the customers.
